So Much to Discover in the All New Appraise-It Pro

Download it now! Enjoy a leisurely review of Appraise-It Pro while you continue to complete your current assignments in Appraise-It.

The vast list of new and updated features is proof that Appraise-It Pro is the newest and most advanced appraisal program available today.

Look for updated icons, improved report searching, a ribbon design similar to MS office and Win 10 with nested menus. You can now add as many additional addenda as you like, enjoy improved photo management, automatic text resizing, and auto-complete common responses. F-keys for common responses are now shared across all forms, as well as spellcheck across the entire report with one click, and validation in real time. The list goes on and on.

We recommend taking a few minutes to view the Appraise-It Pro Overview [video](#). You will be convinced that moving to Appraise-It Pro is an exciting, giant step forward. Appraisers already using Appraise-It Pro give high marks.

Appraise-It Pro really is a major leap forward. SFREP put a lot of thought into the workflow and how to make the appraiser more efficient.
