Year-End - Time to Tidy Up and Make Plans for 2022

Review Your Tax Advantages

December is a very good time to review your office needs, make all necessary purchases, and use these to your tax advantage.

If you are planning a purchase of hardware or software, why not do it at a time that may save some money? New computers now come with Windows 11 and your Appraise-It software is compatible.

We recommend you always consult your tax accountant for up-to-date information.

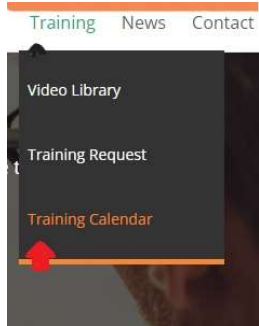

Secure Your Important Data

A loss of data can bring your work to an abrupt halt. It is a serious mistake that most people only make once. If you have ever had a computer crash, a laptop stolen, or an environmental incident like fire or flood, you know the consequences.

Your hard drive may contain thousands of files. Many should be backed up every day. In 2022 get in the habit of backing up data. You will be glad you did. Talk to your technician and make a plan.
