Windows 7 Support Ending

After 10 years, Microsoft ended their support for Windows 7 in January 2020. Since Microsoft is no longer releasing security updates, Windows 7 is susceptible to security vulnerabilities. For software improvements and ongoing security it is important to maintain a current operating system.

At this time SFREP will continue providing Windows 7 support until May 1, 2021; however, for security and reliability we recommend all current Windows 7 users upgrade as soon as possible. For a sneak peek at Microsoft's Black Friday Deals, visit the Microsoft [Store](#).

Reminder:

- All SFREP offices will be closed on Thursday and Friday, November 26 and 27 for the Thanksgiving holiday. Technical Support will be available over the weekend.
- Be sure to visit our new SFREP company website at www.sfrep.com.
