XML Report Viewer
Free to All Industry Professionals

Appraise-It Pro isn't just an advanced formfilling program; it's also a MISMO XML Report Viewer. Anyone can use it to view MISMO XML reports for free, with no signup or account creation necessary!

Appraise-It Pro's Report Viewer mode can open MISMO XML reports created by any forms provider. The Report Viewer displays the XML data including the embedded PDF in an easy and familiar format. You can't edit the file, but you can run Appraise-It Pro's report validator and print to paper or export to PDF and you aren't limited to just MISMO XML report files! You can also open Appraise-It report files (.rpt or .rptx) for viewing, validation, and printing, even if you don't have an Appraise-It Pro subscription.

When Services are Down
Be the First to Know the Status

It is rare these days, but unexpected outages happen or planned downtime may be necessary. When this happens, it can affect one or several online services. Knowing the details as soon as possible helps.

With our status page, you can receive instant notifications any time there is an outage. Visit the page and click "Subscribe" to sign up.

Appraise-It Pro itself also reports any current service outages in its status bar, so you're always up to date.
