Explore SFREP YouTube
Easy Access - Simple To Use
Loaded With Good Information

We encourage our customers to review all the learning options available to them on our YouTube channel.
Information needed for first-time users, as well as seasoned appraisers, is one click away at youtube.com/sfrep.

Home
Under the Home heading you will find the most recently viewed webinars and videos.

Videos
You will find all of our videos in date order starting with the most current. These videos can be reorganized by the Latest, Most popular, or Oldest.

Live
This section features all of our recorded live webinars, starting with the most recent.

Playlists
Our Playlists are listed by topic. For example: *Learning Appraise-It Pro* features 21 videos (5-minutes each) shown in the order they may be needed for a new customer learning the software.

You can easily find what you are looking for using the Search option. Key in the topic, hit return, and your webinar, video, or playlist will appear first on the list.

Sign Up for Online Services
Always Know the Status

We depend on our online services daily. It is important to know their status. Although rare these days, planned

downtime is sometimes necessary and brief outages may occur. When this happens it can affect one, or several, online services. Knowing the details as soon as possible helps.

If you haven't requested to receive status service updates automatically, you should do so. Sign-up is easy. Go to the Status Services website and click "Subscribe" or while in Appraise-It Pro, go to *Support > Check service status. (In Appraise-It Classic go to Help> Check service status)*.

Let's Celebrate July 4th!

All SFREP offices will be closed in celebration of Independence Day on Thursday, July 4th. Regular office hours will resume on Friday and technical staff will be available for regular support hours over the weekend.

We hope you have a safe and happy holiday with family and friends!

Software and Hardware Upgrades Benefit You in Many Ways

At SFREP we try to make the work of appraisers as easy as possible. Upgrading software and hardware is a task that most do not welcome; however, it is necessary. The good news is that it has tremendous benefits for you.

Upgraded software provides:
- Report security
- New forms as required by Fannie Mae and Freddie Mac
- New forms and features requested by appraisers
- New features and shortcuts that will save you time
- Continued ability to interface with third-party programs

New computers provide:
- Security that can save you from risk and possible loss of data
- A faster and smoother workday
- Shorter start-up time
- Faster connections
- Longer battery life for laptops
- Multi-tasking with several applications

Forgoing software upgrades and keeping your old computer beyond the support period is unwise. Planning your upgrade for both is smart, and we will assist whenever possible.

Look for current webinars on our Training Calender. Review specifications when purchasing a new computer. And don't forget to consult your accountant for your tax write-offs. Appraise-It Pro is a free upgrade that is included in your annual subscription.

Uniform Appraisal Dataset (UAD) Progress is Being Made

The expected release schedule for the Uniform Appraisal Dataset

(UAD) has not changed. This multi-year project is progressing nicely. SFREP representatives meet with Fannie Mae regularly to provide input and review the progress.

New milestone details have been added to the UAD timeline for clarification. These new details show how the existing appraisal legacy forms map to the URAR's new dynamic structure.

For complete information and the latest updates go to the Fannie Mae website.

Follow us on social media for current updates and webinars.
